KG :

- We have designed an admission process that is informative, comprehensive and, we hope, hassle-free. To be a member of Mahi family you need to apply by filling up the inquiry form either online or by visiting school campus.
- Whether you are applying to boarding or day, we will request information about past and present academic performance and personal interest. You will be asked to visit campus for a personal interaction in order to understand the child's readiness to join the school, his/her developmental milestones and special needs if any. Each applicant (seeking admission in class I to XII) will have to go through a standardized written admission test (scheduled on regular basis). Children in boarding house (both boys & girls) will be admitted from grade II onwards.

Mahi Admission cum Scholarship Test

- The School strives to nurture the potential of students and to give a boost to the scholastic domain of the talented and ambitious students, Mahi conducts a admission cum scholarship test for the new entrants of classes III to XII before the commencement of the new session every year thus providing the scholarship of 25% to 100% on tuition fees to the meritorious students of each class. Hence, regardless of your financial circumstances, if you have the drive to study and excel, you are welcome to apply.
